SUMMARY

Experienced and highly skilled web developer with an eye for detail and expertise in frontend technologies, including React.js, Next.js, and TypeScript. Specializing in building user-friendly and visually appealing web applications, I bring a deep understanding of UI/UX principles and responsive design. Proficient in integrating backend functionalities, I have a solid foundation in Node.js, Express.js, and MongoDB.

PROFESSIONAL EXPERIENCE:

Stunhaul Pvt. Ltd.

Frontend Developer Intern | 12 December, 2022 - 12 March, 2023

- Developed and implemented the first functional version of Stunhaul Pvt Ltd's customized gift e-commerce platform, contributing to enhanced user experience and revenue growth.
- Designed and executed the frontend of the platform using cutting-edge technologies like React and Tailwind CSS, ensuring a visually appealing and responsive user interface.
- Collaborated with cross-functional teams, including designers and backend developers, to translate business requirements into innovative web designs and features.
- Demonstrated meticulous attention to detail, delivering high-quality code and ensuring seamless functionality across diverse devices and browsers

Wictronix Pvt. Ltd.

React.js Developer Intern | 12 June , 2023 - 12 August, 2023

- Developed and launched a dynamic E-commerce storefront using Next.js, delivering an engaging and user-friendly online shopping experience.
- Led the successful implementation of a Restaurant Management System, optimizing operations and enhancing efficiency for restaurant owners and staff.
- Collaborated closely with the development team to deliver high-quality code and ensure seamless integration of frontend and backend functionalities.

RELEVANT PROJECTS:

CU-Foods : A Food Ordering App

Frontend Developer | April , 2023 - Present

- Contributed to the development of React-based app for startup, optimizing food ordering with real-time updates and online payment.
- Collaborated on frontend design using React and Tailwind CSS, incorporating features like vendor and admin portal for streamlined management.

Car Mania: A Car Rental App

Full Stack Developer | Feb, 2023 - April, 2023

- Developed MERN stack car rental web app with user-friendly interface using React, Redux, MongoDB, Node.js, and Express.js.
- Implemented responsive frontend design with Tailwind CSS for seamless booking experience and efficient backend functionalities.
